C: SUPPORTING INFORMATION

Your supporter can be your employer, a member of the IET or someone that knows you in a work capacity. If you are/have been a student member of the IET you do not need to complete the supporter section below as long as you supply documentary evidence of the qualifications that you have obtained with this form (please submit photocopies as the IET cannot accept responsibility for original documentation).

See Figure 2

D: DECLARATION

I declare that the statements made on this form are to the best of my knowledge true. I confirm that I have not committed any offence of which the Institution of Engineering and Technology (IET) would require me to give notice under its Rules of Conduct. I agree to comply with the Royal Charter and Bye-laws of the Institution and whilst remaining a member I will do my best to promote the interests of the Institution.

I understand and consent to the information provided on this form being processed by the Institution for its sole use and that of its associated organisations for the purposes of promoting, delivering and improving my experience of the Institution, its products and its services, by post and electronic means.

The Rules of Conduct and the Royal Charter and Bye-laws are published on the website www.theiet.org/byelaws

Application for Membership of the IET – Supporter required

The role of the supporter is to confirm, from their personal knowledge, that the applicant has the appropriate knowledge and understanding and is a suitable candidate to use the IET's designatory letters after their name. A supporter can be the applicant's employer, a member of the IET, or someone else who knows the applicant in a work capacity. If a supporter is not entitled to use the designatory letters FIET, MIET or TMIET, the IET will write to them for additional information to ask them to verify that they understand the requirements and fully support the application. The IET reserves the right to contact any supporter. It is not IET Policy to disclose comments made by supporters. Applicants for MIET/TMIET are recommended to discuss their application with their supporter prior to submission. An application will be progressed once the supporter's response is received.

Name of Applicant	Philip McGaw

Philip McGaw's CV for IET

Electro Magnetic Compatibility (EMC) Test Engineer at Jaguar Land Rover UK - Gaydon

September 2018 – Present

I am responsible for EMC and EMF (Electro Magnetic Fields) compliance of vehicle components and sub-assemblies on a number of car lines.

- Project manage components through testing procedures
- Manage internal projects, with cross functional teams in other departments.
- Liaise with internal and external stakeholders regarding the status of their components and component testing
- Liaise with test engineers to confirm the correct procedures are being followed.
- Project manage the setup of a new conducted Emissions and Immunity laboratory.
- Manage EMC Investigations.

EMC Test Engineer at CASS Industries Ltd. - Manchester

March 2014 - September 2018

My main duties involve managing the testing of clients' electrical and electronic products for compliance with European Directives and appropriate test standards (including EN55032, EN50130-4, and the EN61000 series of standards).

- Production of technical reports, technical plans, procedures and reviews for external stakeholders
- Maintenance of test facility and equipment; including performing calibration
- Improvement of processes and procedures for testing
- Test of complex electronic equipment
- Carry out investigations and cost effective solutions for clients, including process improvements.
- Looking after the internal network, desktop computers, and servers (Microsoft Office on Windows 7 and 10).

Director at Squashed Fly

September 2006 - Present

- Website design and hosting for a number of clients, including pro-bono work for charities.
- Looking after the day to day running servers and infrastructure (Debian and Ubuntu Linux)
- Investigate and carry out infrastructure changes

IT Contractor

May 2012 - March 2014

- Remote, and On Site Helpdesk Engineer for external clients (including DWP, UK Boarders Agency, Ministry of Justice)
- Working within the Official Secrets Act, and International Traffic in Arms Regulations, Holding Security Vetting,

Technical Clerk and Document Controller at Culham Centre for Fusion Energy - Oxford

March 2010 - September 2011

- Working as part of a group of scientists and engineers on components for ITER
- Preparation and maintenance of records, quality plans, document reviews and reports.
- Worked on the project for the implementation of Microsoft Sharepoint.

Structures Clerk and Outside Parties Technical Clerk at Network Rail - Swindon

February 2008 - January 2009

- Working within the Western Territory Civil Engineering team.
- Interfacing with and acting as the primary contact between third parties, including Police, members of the public, and the Engineering team.
- Ensuring compliance with 'The New Roads & Street Act' and 'The Road Vehicles Order'.

Year in Industry Student at Scott Wilson Railways - Swindon

June 2006 - August 2007

- Site Surveying for the East London Line, and GSM-R Projects.
- Production of CAD drawings and schematics using Bentley Micro Station and Hevacomp.
- Designing 11 kV, 650 V, 415 V, 230 V power and signaling power distribution circuits,
- Designing of Tunnel and Station Lighting arrangements.
- Production of Technical Reports.

The Institution of Engineering and Technology is registered as a Charity in England & Wales (no 211014) and Scotland (no SC038698).
